EDUCATION

Aditya Collage Of Engineering And Technology , Surampalem	July 2023 - Present
Bachelor Of Technology, Information Technology	CGPA-7.1
National Senior Secondary School , Patna	September 2021 - June 2023
MPC [Maths Physics Chemistry]	CGPA-7.4
Dr. KKR S Gowtham School , Kakinada	June 2020 - August 2021
CCE Pattern - State Board	CGPA-10.0

SKILLS AND PROFICIENCIES

Languages: Java, Python, C, HTML, CSS, JavaScript.
Frameworks: Flask, ReactJS
CS Fundamentals: Data Structures & Algorithms, OS, Networks, DBMS, OOP.
Technical Skills: Figma, Software Development, Debugging, Git, Microservices.
Databases: MySQL, MongoDB, PostgreSQL.
Soft Skills: Communication, Teamwork, Leadership.
Developer Tools: VS Code, GitHub, Google Colab, Spyder, IntelliJ, Jupyter, Postman.
Interests: Machine Learning, Deep Learning.

WORK EXPERIENCE

Ava Intern Edutech Pvt. Ltd.	Remote
<i>Full Stack Web Development Intern</i>	May 2026 – June 2026
- Completed a Full Stack Web Development internship, gaining hands-on experience in developing responsive web applications using modern web technologies and industry best practices. - Strengthened front-end and back-end development, debugging, and problem-solving skills through project-based learning while successfully earning the Internship Completion Certificate.	
Technical Hub Pvt. Ltd.	Surampalem, Andhra Pradesh
<i>Trainee</i>	June 2024 – June 2025
- Completed comprehensive training in Java and Python, building strong foundations in object-oriented programming, data structures, and software development. - Earned the Oracle Certified Foundations Associate (Java) certification and Oracle digital badge, validating proficiency in Java programming fundamentals.	

PROJECTS

Health Predictor <i>Python, Machine Learning, Pandas, Scikit-learn, NumPy</i>	Sep 2024 – Nov 2024
- Developed a machine learning-based health prediction system trained on disease and health datasets to assess an individual's health condition. - Implemented data preprocessing, feature engineering, and predictive modeling using Python and Scikit-learn to improve prediction accuracy. - Designed an interface that accepts user health and lifestyle inputs to generate personalized health predictions and recommendations.	
Weather Prediction Web Application <i>Python, Flask, HTML, CSS, REST API</i>	Aug 2025 – Nov 2025
- Built a Flask-based web application that retrieves real-time weather information using a public weather API. - Developed a responsive user interface with HTML and CSS, allowing users to search weather conditions for any location worldwide. - Integrated REST APIs with backend logic to display live temperature, humidity, wind speed, and weather conditions dynamically.	

ACHIEVEMENTS

- Solved over 660 problems on **LeetCode**, achieving a peak contest rating of 1813.
- Completed more than 150 problems on **GeeksforGeeks**, with a coding score of 1850 and a contest rating of 1716.
- Attained 5-star badges in C, Python, and Java on **HackerRank**.
- Achieved a 3-star rating on **CodeChef**, with a highest rating of 1643.

CERTIFICATIONS

- Oracle:** Oracle Certified Foundations Associate (Java Certified Foundations Associate)
- IBM:** Python 101 for Data Science, Getting Started with Artificial Intelligence
- NPTEL:** Introduction to Quantum Computing: Quantum Algorithms and Qiskit
- APSSDC:** AWS Cloud Computing - DevOps Summer Online Internship Program
- be10x:** AI Tools and ChatGPT Workshop Certificate
